

## RF-E 04

E Field Probe 30 MHz up to 3 GHz

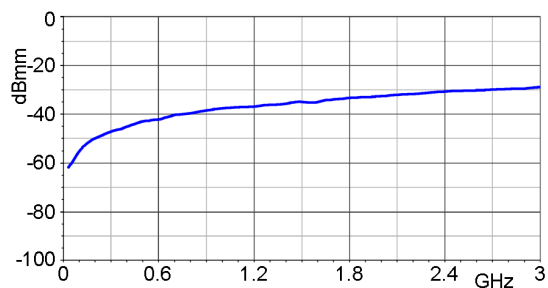

### Short description

The electrode on the underside of RF-E 04 probe head detects electrical fields which are decoupled by clocked lines and ICs. The resolution of the probe allows for measurements with a distance from 0,5 to 10 mm above the assembly.

### Technical parameter

Frequency range	30 MHz ... 3 GHz
Probe head dimensions	≈ (5 x 5) mm
Connector	SMB, male, jack

### Frequency response
